#### 157 Claim for Disability Support Pension/Medical Evidence Checklist/Medical Evidence Requirements

#### Medical evidence to support your claim for Disability Support Pension

You need to provide current medical evidence from your treating health professional(s) to support your claim for Disability Support Pension. We need this information to help us understand how your medical conditions affect you, and to make sure we correctly assess your claim.

We are not responsible for obtaining this information on your behalf. However, we may contact your treating health professionals to confirm or clarify information you provide about your medical conditions.

#### Information we need to assess your claim

You must provide current medical evidence about each of your medical conditions that impact your ability to work. These requirements are explained in more detail below.

You need to provide suitable medical evidence when you lodge your claim. If you do not provide this information we may be unable to correctly assess your claim, and may reject your claim.

Tell us if you cannot provide evidence within that time, or if you are having difficulty obtaining medical evidence.

#### What is medical evidence?

Medical evidence includes documents written by a registered medical practitioner (such as your treating doctor) and other registered health or allied health professionals. This evidence should support the information you provide in the medical details section of your claim.

Statements about your condition written by you or your nominee are taken into account, but are not considered medical evidence. This applies to information provided by a person who is not a registered health professional, such as a teacher.

#### **Examples of medical evidence you should provide:**

- · medical history reports/print outs
- specialist medical reports, including outcomes of specialist referrals by your treating doctor
- allied health professional reports, such as physiotherapy or audiology reports
- psychologist reports, including IQ testing reports
- medical imaging reports
- · compensation and rehabilitation reports
- physical examination reports
- hospital/outpatient records or discharge summaries including operations you have had.

You are not required to provide everything on this list. Medical evidence should be as current as possible. Older evidence (such as reports or records more than 2 years old) will generally be considered less relevant. Talk to your treating health professional if you are not sure whether the medical evidence you have reflects your current circumstances.

#### **Details of your treating health professionals**

Include the full name and contact details for all your treating health professionals in the medical details section of your claim.

#### Information we need about your medical conditions

In most cases, we need current information about the diagnosis, treatment, symptoms, functional impact and prognosis of each of the medical condition(s) that impact your ability to work. This is explained in more detail below:

#### **Diagnosis**

- The formal diagnosis of the medical conditions that impact your ability to function.
- When each medical condition was diagnosed.
- The name, qualification and contact details of the medical professional who made the diagnosis.

#### **Treatment and care**

- The type of treatment that has been undertaken in the past.
- The current treatment(s) you are undertaking.
- Planned or future treatment, including whether you are on a waiting list.
- If you require specific care because of your condition, including nursing home level or palliative care.

#### **Symptoms and functional impact**

- When the symptoms of each medical condition started (date of onset).
- Current symptoms of your conditions (persisting despite treatment, aids, equipment or assistive technology).
- The severity, frequency and duration of your symptoms.
- How your conditions and treatment impact on your ability to function in day-to-day life including at work.

#### **Prognosis**

- The length of time the condition is likely to impact your ability to function.
- Whether the condition is likely to improve, remain the same or get progressively worse.
- Whether your medical condition is likely to significantly affect your life expectancy.

### Specific medical evidence required for some medical conditions

We need specific medical evidence for some medical conditions. This includes:

- ear conditions affecting hearing or balance: the diagnosis must be supported by a report from your audiologist or ear, nose and throat specialist.
- eye conditions affecting vision: the diagnosis must be supported by a report from your ophthalmologist.
- mental health conditions (such as depression, schizophrenia): your doctor's diagnosis must be supported by a psychiatrist or registered psychologist assessment.
- intellectual impairment: we need an assessment of intellectual function and assessment of adaptive behaviour from your psychologist, or a report from your special school that includes these psychologist assessments. Evidence you provide must include information supported by a psychologist about your IQ score, or your ability to undergo IQ testing.

For more information, go to **servicesaustralia.gov.au/dsp** or call us on **132 717**.

# **Consent to disclose medical information**(SA472)

#### Purpose of this form

This form is used to confirm that you consent to your treating health professionals and/or health providers disclosing relevant information about your disability or medical conditions to Services Australia, or assessors engaged by Centrelink.

This consent form does not replace the need for you to provide medical evidence when lodging a claim for Disability Support Pension (DSP). We need medical evidence from your treating health professionals to help us understand how your conditions affect you and to correctly assess your claim. This is explained in the Medical Evidence Checklist (SA473) form and the Claim for Disability Support Pension (SA466) form available on our website.

If more information is needed to assess your eligibility for DSP or employment services, Centrelink or assessors engaged by Centrelink may contact your treating health professionals and/or health providers to confirm or clarify information you provide about your disability or medical conditions.

This may include contact with any health professionals (including your treating doctor) and/or health providers who have examined, diagnosed or treated your disability or medical conditions which are relevant to your eligibility for DSP or employment services.

Your treating health professionals and/or health providers may be asked to disclose any medical information relevant to assessing your eligibility for DSP or employment services. This includes medical and specialist reports, clinical notes, medical records or other information, and any barriers that may affect your ability to work or participate in employment services or other assistance programmes.

Your treating health professionals and/or health providers may ask for confirmation that you have consented for them to disclose your medical information to Centrelink or assessors engaged by Centrelink.

You can complete the Consent to disclose medical information statement on this form to provide your consent, and Centrelink will show this to your treating health professionals and/or health providers if requested.

You can withdraw your consent at any time by advising Centrelink. However, if your treating health professionals or health providers do not disclose relevant medical information when requested, Centrelink may not have enough information to assess your eligibility for DSP or employment services. This may result in your claim being rejected or your payment being stopped.
